Hello! We are Ciocoiu Radu and Costan Bianca. We think it's important to save the forest and protect the nature because that is the gift Mother Nature gave to us.

Forest is my favourite. Forests provide ecosystem services to humans and serve as tourist attractions.

Hello!!

Trees are awesome, they produce oxygen which is vital to our life, so we must protect them and try to plant as much as we can .

Protecting it means protecting our own lifes.

I believe that deforestation brings the end of the world.

Hi,
My name is Mihalache Diana. I think that people should think twice before doing anything that might affect nature, because nature is our source of life.

Hi! I am Maria
Nature is beautiful and we must protect it, for there couldn't exist a single life form without it.
